OFFICE OF CENTRIFUGAL ADVANCE, BROOKLYN

BPL's third space exploration mission will launch in late August, 2009, hopefully. This project will retrace the path of an expedition that included the painter [Thomas Moran](#) to the Yellowstone region in 1871, only this time with three separate robotic spacecraft. Mission objectives include \*a continuation of BPL's search for life on Earth; \*the examination of this active volcanic region for [a solution to America's Dependence On Foreign Oil](#); and \*photographic analysis of the area for determination of recommended tourist behaviors. Given that the [Panic of 1873](#) and the [creation of the National Park system](#) were both directly affected by an artist's actions, BPL Leadership decided in this economic climate that a return to the region may well be instructive, especially when you consider how much camping is going to get done this year.

-----

At any rate, BPL is soliciting funds for the project. Our Sincere Unselfish Creative Kind Erudite Reliable Supporter (SUCKERS) program was designed for just this purpose. Since [BPL-002](#) was such an overwhelming and surprising success (we raised dozens of dollars for our [Outsourcing Mission To China](#)), we thought another scam might work. As our supply of tourist-style paintings made in China with American Outsourced Labor is all but exhausted, we thought we'd offer a similar incentive for this event. **Genuine tourist-style paintings executed by a scout sent to the Yellowstone region** will be available in our inimitable fake-genuine vernacular, inspired by 19th century impulses, if not skills. We will be happy to offer these paintings to the

aerospace community, or any other taker, with the understanding that proceeds will be applied to advancing the goals of BPL-003. As always **the paintings come with overdetermined packaging, needlessly complex certification, collectible cryptic statements, and entreaties for escalated donation.** The price of these unique but compact handcrafted renderings is set at **USD \$150.00.** As a special incentive, a "Post-Republican Economy" lay-away plan is available. A system of regular remittances can be arranged on a case-by-case basis. Barter will be considered, but BPL is unable to accept any more pets at this time.

\*\*\*\*\*

BPL Further extends sponsorship opportunities to the level of **Equipment and Experiments.** Because of the material and intellectual complexities of this project, and the estimated costs of overcoming '**unknow-how**' parameters, BPL management has concluded that **unprecedented partnership 'opportunities' shall be offered.** In exchange for a financial, material, or spiritual commitment to critical Mission Elements (**ME**), BPL will supply donors with the following:

- \*1) A 'microinscription' permanently deposited on the equipment or housing of the Mission Element or elements selected, and employing whatever phraseology the donor prefers, as long as its in English (42 characters maximum);
- \*2) a '**Sculpturized**' test article derived from the tortuous

process of **perfecting flight ready equipment**. The donor will receive what would look like a **broken piece of crap** with wires hanging out of it, were it not for the **seductive** encapsulation and **informative** card accompanying the artifact. The item will come with a **test report and documentation** indicating the donor's involvement with the development of this Mission Element. These items are guaranteed to be **unique**, if not to function; and

**\*3)** one of the aforementioned scout-produced art renderings with its documentation and packaging. The base cost of this level of assistance is **\$500.00**.

\*\*\*\*\*

While theoretically **there is no limit** to the amount of support one could give, at some point our **wealthier or more corrupt** patrons might consider purchasing one of the entire spacecraft for eventual display in their second **home or jail** cell. Also we are not above ascribing naming rights, and would be happy to jot something on the side of, say, our balloon, so that any nearby competing private aircraft can be exposed to this novel manifestation of one individual's largess. Again, non-monetary sponsorship will be considered but not taken seriously.

\*\*\*\*\*

**Finally, there will be a number of smaller items available to quench the acquisitive thirsts of enthusiastic but bashful aerospace consumers:**

**\*1)** The chance to launch the ICARUS balloon via remote control through the Interweb will be awarded in a **Raffle**. Anyone foolhardy enough to purchase anything from BPL during the period **between now and August 2009** will be **automatically entered**. Everyone else pays **\$15** bucks.

**\*2)BPL Stock** is selling for around \$20.00 a share. This stock will never lose its value (see details on certificate after you buy it)!

**\*3)** BPL is developing **stereo cameras** for imaging the Yellowstone environment. **Commemorative cards** depicting photographic observations from the spacecraft will be offered **along with Deluxe stereo viewers** for **\$50.00**.

**\*4)** Cute yet moribund **figurines depicting the BPL - 003 Mission logo and mascots** arranged in a vaguely offensive 'totem pole' will mark the occasion at a rate of **\$35.00** a piece.

**\*5)** **Awesome models** of the three spacecraft, made by BPL's in-house 'professional' model department, will be **\$120.00** each. **Specify which vehicle** you want when ordering.

**6)** BPL 'recycled' mugs and t shirts are also available at the **BPL 'Ether-Bodega'**, along with other preposterous merchandise.

Order Form (click here to go to an interweb version):

Yes! I would LOVE to help make this VITAL project become a REALITY! Please register me in the SUCKERS Program.

First Name \_\_\_\_\_ Last Name \_\_\_\_\_ Title \_\_\_\_\_

Electronic or Otherwise Technical Address: \_\_\_\_\_

I would like to (check all that apply):

- Become a Foster-Manufacturer
- Purchase Equipment
- Donate to the project
- weigh my options

Please Indicate the piece of equipment you'd like to help (you may choose from our list or just make something up) \_\_\_\_\_, and choose a level:

- Blue Collar \_\_\_\_\_ Dollars
- Grey Collar \_\_\_\_\_ 10's of \$
- White Collar \_\_\_\_\_ 100's
- Farmer Tan \_\_\_\_\_ L.O.U
- Paper Collar \_\_\_\_\_ 1,000's
- Gold Collar \_\_\_\_\_ millions of Dollars, Euros, or in Toxic Assets (don't forget to choose a consonant!)

Cut out and send this form, (along with your script to: BPL
